R. H. Birk  
Project Manager  
Environmental Restoration Division  
DOE, RFO

**TRANSMITTAL OF TECHNICAL MEMORANDUM 1 - ADDENDUM TO FIELD  
SAMPLING PLAN - MFM-004-93**

Enclosed are six copies of the Draft Technical Memorandum-Addendum to Field Sampling Plan Rocky Flats Plant 100 area (Operable Unit 13); two each for the United States Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) and two for you. This document has been revised to incorporate the changes requested by the Department of Energy's (DOE) reviewer and EG&G Rocky Flats Inc., Environmental Quality Services' representative. Two copies of the response to their comments are also enclosed.

In your transmittal letter to the agencies please remind them that there were not any changes to sampling locations we identified on our site inspection/walkdown on September 27, 1993, with the exception of the slight relocation of sampling points in Individual Hazardous Substance Site (IHSS) 117.2 to sample points inside Tent Number 1. In addition, please request that they review this document as quickly as possible because we hope to begin soil sampling on or about March 15, 1994. Upon the receipt of approvals the draft connotation will be removed and the document will be issued as a controlled document.

Please advise me on the number of Final documents you need and to whom they will be distributed so I can inform document control. If you have any questions or concerns please call me at X8624.

M. F. McHugh  
Project Manager  
Restoration Project Management
